

Cantabric Sand Filter

- ✓ Low pressure loss, requires less power consumption for optimal flow rates
- ✓ Designed for variable speed energy efficient pumps
- ✓ Fully injection moulded for high strength and long life
- ✓ Suitable for Sand, Viron Glass and other filtration medias

Cantabric Sand Filter

The sophistication of modern pools and spas is placing even greater pressures on pumps and filters. That is why we have designed the Cantabric Sand Filter around the output of today's high performance pumps.

The Cantabric Sand Filter produces crystal clear water using fine sand or recycled crushed glass media as the filter medium. Each filter incorporates an engineered multiport valve to direct the water flow and minimise the resistance through the filter, making the Cantabric ideal for today's energy efficient high performance pumps.

The Cantabric range represents the largest investment in design and production for any residential filter range using high quality hardened steel tooling to produce high tolerance, high strength tanks that provide the longest trouble free life available. This high tolerance enables the screw on lock ring to secure the multiport valve along with self sealing barrel unions which enable fast, simple installation, easy service and access to the filter media in future years.

Low resistance to water flow means less energy required by the pump and power savings to you. Simple and easy installation means lower installation and maintenance costs. High quality components

such as the oil filled pressure gauge, corrosion free clamp band and valve connections and fast draining of water and filter media for maintenance mean the Cantabric is economical and easy to maintain and service for the life of the product.

Cantabric Filters are perfect to combine with Viron Glass filter media for clean, healthy and sparkling pool water.

MODELS

The Cantabric range is available in 4 models complete with 6 way multiport valve, pressure gauge and air release, barrel unions and backwash sight glass.

WARRANTY

Each filter is covered by a limited 10 year warranty on the tank and 12 month warranty on the valve and internals.

CAPACITY TABLE

Model	Tank Diameter	Filter Area	Port Size	6 Hr. Turnover	8 Hr. Turnover	Media Req'd.
C 180	540 mm	0.21 Sq M	40 mm	65,000 ltrs	86,000 ltrs	90 kg
C 280	630 mm	0.30 Sq M	40 mm	100,800 trs	134,400 ltrs	125 kg
C 320	630 mm	0.30 Sq M	50 mm	115,200 ltrs	153,600 trs	125 kg
C 400	780 mm	0.46 sq M	50 mm	144,000 ltrs	192,000 ltrs	225 kg

DIMENSIONS WITH VALVE INSTALLED

Model	Height	Width	Shipping Weight
C 180	102 cm	56 cm	18 kg
C 280	107 cm	64 cm	20 kg
C 320	115 cm	64 cm	22 kg
C 400	125 cm	78 cm	28 kg
